4Life Transfer Factor® GluCoach™

Targeting Good Health Through Balance

4Life
TOGETHER, BUILDING PEOPLE®

Maintaining healthy glucose (sugar) levels is an important part of pancreatic health and an even more important aspect of good health for millions of people around the world. Metabolic and endocrine disorders keep your body from producing or properly using insulin, a hormone that is needed to convert sugar, starch and other foods into the energy needed for daily life.

4Life Transfer Factor GluCoach is formulated to promote healthy glucose levels in the body and provide support for both the metabolic and endocrine systems. In addition to patented Targeted Transfer Factor technology, Transfer Factor GluCoach is formulated with minerals, herbs and phytonutrients that have been clinically shown to support healthy insulin function, improve glucose tolerance and promote pancreatic health.

Key Points

- **Supports Healthy Metabolic Function:** Pterocarpus marsupium, momordica charantia (bitter melon) and gymnema sylvestre are all well known for supporting balanced glucose levels. Both pterocarpus marsupium and gymnema sylvestre have also demonstrated an ability to support healthy function of the pancreas. Bitter melon has been shown to support glucose tolerance and the body's ability to process sugars.

  Ginseng and fenugreek are herbs that promote healthy glucose and cholesterol levels. In addition, improved glucose tolerance and healthy insulin function are further supported with chromium and vanadium.

- **Supports Healthy Immune Response:** Transfer factors are tiny molecules that transfer immunity information from one entity to another. These "smart molecules" support healthy immune responses, including the body's ability to remember. 4Life Transfer Factor GluCoach provides the benefit of Targeted Transfer Factor for excellent support of metabolic and endocrine systems.

- **Provides Antioxidant Support:** Alpha lipoic acid (ALA) has been shown to be an important antioxidant to support healthy metabolic systems and structures. ALA supports healthy insulin function in the body and healthy blood sugar levels.

Technical Points

- 4Life Transfer Factor GluCoach is a Targeted Transfer Factor product and is protected by US patents 6,468,534, and 6,866,868

Ordering Information

Item # 29001 - 120 ct/bottle

4Life strongly recommends the use of BioEFA in combination with 4Life Transfer Factor GluCoach.

GluCoach

DIRECTIONS: Take four (4) to six (6) capsules daily with 8 oz of fluid.

Supplement Facts

Serving Size: Four (4) Capsules
Servings Per Container: 30

Amount Per Serving		%DV*
Chromium (as chromium amino acid chelate)	280 mcg	230%
Targeted Transfer Factor® A patented extract containing Targeted Transfer Factor from cow colostrum and egg yolk.	**200 mg**	†
Vanadium (as vanadium amino acid chelate)	600 mcg	†
Alpha Lipoic Acid	120 mg	†
Proprietary Blend	**1620 mg**	†
Pterocarpus marsupium heart wood extract		
Gymnema (*Gymnema sylvestris*) leaf extract		
Fenugreek (*Trigonella foenum-graecum*) seed extract		
Momordica charantia fruit extract		
** Korean Ginseng (*Panax ginseng*) root extract		

* Daily Value ** From China
† Daily Value not established

Other Ingredients: Gelatin capsule and sodium stearyl fumarate.

CONTAINS INGREDIENTS FROM EGG AND MILK.
